

## RB503

### Electric 3-Spindle Adjustable Paper Drill

Model RB503 equipped with a powerful motor that ensures efficient and precise drilling. The Three-Spindle Adjustable Paper Drill is perfect for businesses that require high-volume drilling of paper materials, such as bookbinders, print shops, and offices. With its adjustable hole distance, this paper drill offers versatility and flexibility in drilling various hole patterns. The fixed center head provides stability and accuracy, while the adjustable outer heads allow for easy customisation based on your specific requirements. Whether you need to drill holes for binding, organising, or filing purposes, this paper drill can handle it all. The drilling capacity of up to 50mm ensures that you can drill through thick stacks of paper with ease. This saves you time and effort, especially when dealing with large quantities of documents.

### TECHNICAL SPECIFICATIONS

WB50B	
Drill Head Qty	3
Drill Thickness	≤ 50mm
Hole Diameter	3.0-8.0mm
Hole Distance	45-110mm
Margin Adjustment	8-35mm
Work Plate Size	470*270mm
Drilling Mode	Electric
Machine Dimension	47*51*45cm
Voltage & Power	AC220/110V±10%, 50/60HZ 400W
Weight & Packing Size	60kg 61*53*55cm
